Maintenance

Cleaning: Wipe the exterior with a dry, soft cloth. Do not use water or cleaning solvents on the device.

Coil replacement: Replace the coil when you notice a burnt taste or reduced vapor production. Use only compatible coils.

Storage: Store the device in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Solution
Device won't turn on	Check battery charge and installation
No vapor	Check coil and wick; prime the coil
Leaking	Tighten the tank; check O-rings
Burnt taste	Replace the coil; reduce power
Battery drains quickly	Lower the power setting

Device won't turn on: Ensure the battery is charged and properly installed. Try a different battery if available.

No vapor: Check that the coil is not burnt out. Prime the coil by saturating the wick with e-liquid before use.

Leaking: Make sure the tank is not overfilled. Check that the O-rings are properly seated and not damaged.

Burnt taste: Replace the coil. Reduce the power setting. Allow the wick to fully saturate before firing.

Battery drains quickly: Lower the power setting. Ensure the battery is fully charged. Consider using a higher capacity battery.
